# Standard Brands of Sequatchie Hickory Handles

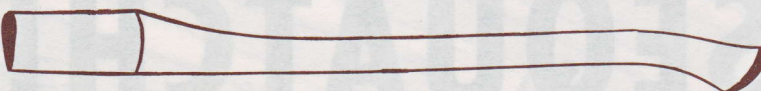

Code

WITH **REDDY FIT EYES** AND **WEDGES****UB Unbrako Brand** SEE PAGE 3**IR Iriquois**

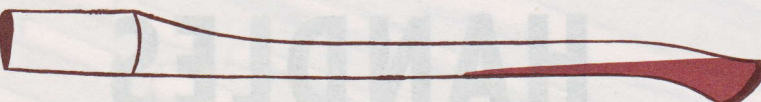

All white, straight grain, heavy weight hickory. Free from all defects, the finest selection of handles for use where safety, long life and expert workmanship are desired.

**C Cherokee**

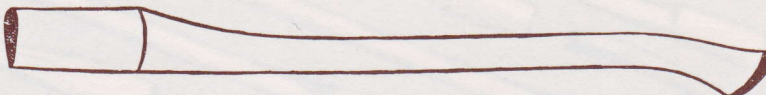

All white, straight grain, heavy weight hickory. Free from defects. A selection for long, safe service.

**M Mohawk**

Good quality, white hickory. Slight blemishes of growth permitted in areas not affecting service of the handle.

**S Sioux**

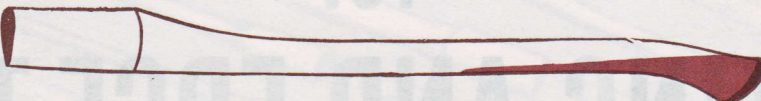

First quality white or mixed red and white heavy weight hickory. Free from all defects. An excellent service selection for mine, railroad and heavy construction requirements. An economical, durable long life handle.

**A Aztec**

White hickory handles permitting red tips. Small blemishes are allowed as long as they do not impair service or appearance of the handle. A handle of good appearance for rugged service.

**SE Seminole**

Red or mixed hickory, permitting slight blemishes, good weight straight grain hickory. Suitable for general work, contractors, industrial or mine service.

**SEN Seneca**

Largely white hickory permitting slight defects of growth. A good competitive handle.

**GH Genuine Hickory**

Cherry stain. A competitive priced handle. This handle will give good service.

**Fire Finished Hickory****Code FT**

Available In Two Brands

**Code IF****FLAME TEMPERED—A Grade Hickory****INDIAN FIRE HICKORY**

Fire Finished—waterproof sealer. Handles are furnished with Reddy Fit Eyes and wedges (where required). An excellent quality with tremendous sales appeal as well as superior service and long life.

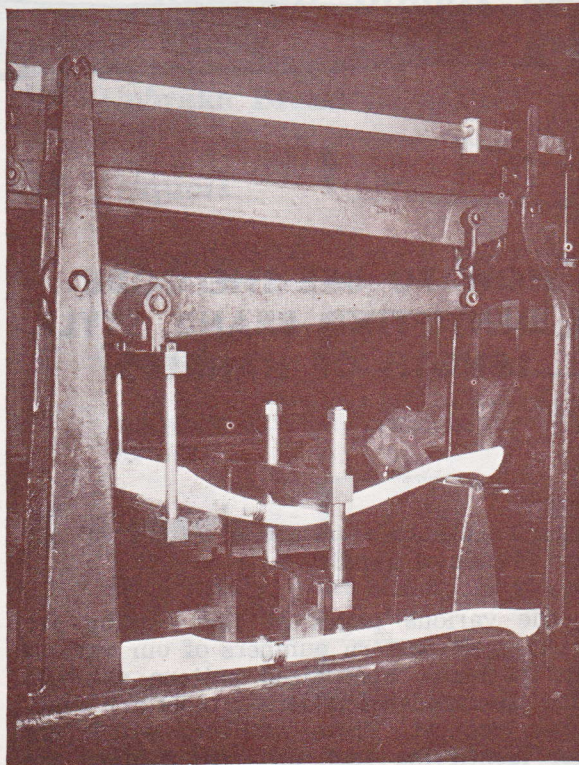

Fire Finished—waterproof sealer. Handles are furnished with Reddy Fit eyes and wedges (where required). An excellent handle at competitive prices. Unusual sales appeal together with the ability to withstand hard service.

SEQUATCHIE handles are made to the most exacting specifications in the handle industry. Every SEQUATCHIE handle is guaranteed in the jobbers or dealers stock as well as in use by the consumer. This guarantee includes warpage, borer infestation or any natural causes which might impair the handles' sale or service.

All Unbrako Handles are subjected to a physical test to reveal internal defects.

# UNBRAKO

## HICKORY HANDLES

- ✓ **RESILIENT . . .**
- ✓ **STRONG . . .**
- ✓ **SAFE . . .**

Each handle is manufactured from immaculate white, hand-split hickory, grown in the famous limestone regions of Tennessee and Kentucky. Order the stronger, safer, more resilient, SEQUATCHIE handle NOW!

✓ **Fully guaranteed: cannot be broken for purpose intended.**

SEQUATCHIE, TENNESSEE

## HAND SPLITTING HICKORY BILLETS

We make our Hammer, Hatchet and Sledge Handles from Hand Split Second Growth Hickory Billets. While it is a slower and more expensive way of making handle stock, nevertheless, it is by far the best. Aside from the fact that a Hand Split Billet is absolutely straight grain as the block is split with the grain, more important it permits us to use young hickory saplings of the greatest strength, resiliency and shock withstanding quality. These small, young saplings are too small to saw satisfactorily, yet they make ideal handle material.

Our timber operations extend from Indiana, through Kentucky and through the state of Tennessee. Being the largest buyers of hickory in the world we are able to choose hickory which meets our most critical specifications.

**OUR HANDLES ARE ALWAYS MADE FROM FOREST TO  
FINISHED PRODUCT—UP TO A STANDARD AND NEVER  
DOWN TO A PRICE.**

We also manufacture specialized hand drill hammer handles for the Stone Industry. Write us for pattern details.

## SEQUATCHIE TENNESSEE PLANT

The Sequatchie Plant is a modern up-to-date, efficient manufacturing plant. It has a production of 1000 dozen handles daily. In order to serve the hickory requirements of the main plant at Sequatchie corollary supply mills are established through the entire Sequatchie Valley which extends for 100 miles through the Cumberland Mountains. Here in the coves and mountain benches some of the finest hickory in North America grows. The Sequatchie Works is located in one of the largest reserves of hickory timber in the world. One can travel for 100 miles or more through the Sequatchie Valley and see continuous mountain sides of forest in which some of the finest hickory trees in the world are growing.

Sequatchie has the facilities, the experienced and skilled personnel, the adequate supply of raw material, and the desire and interest to do a first class job of furnishing you with all the handles you require. Our capacity is not only developed for a normal time performance; we have surplus capacity and reserve stocks of handles and equipment to meet our full obligations in any critical times that may develop. We have tried to prepare for any future emergency.

**Factories at Sequatchie, Pikeville, and Jamestown, Tennessee**
